

Dear Local Community Organization:

Wouldn't it be great if there was a way you could help increase the financial literacy in our local students? Treasure My Future Financial Literacy & Life Skills Conferences are creating a movement to help bring important financial literacy and life skills back into our student's lives by taking the wealth of financial knowledge that is available and transforming it into a fun and exciting FREE event for local students. Community minded local professionals like you are hosting Treasure My Future Conferences and presenting on financial topics they are passionate about where students are engaged in sessions geared toward their age level.

Conference attendees are rewarded for their participation during the presentations and receive a Certificate Of Attendance which can be used to earn extra credit if their school chooses to participate.

Depending on the conference, students may also receive prizes and could leave the conference with a thank-you gift for attending.

I was hoping you would take a look at this new concept and consider holding a Treasure My Future Financial Literacy & Life Skills Conference in our community. You can visit www.TreasureMyFuture.com to learn more about this great program.

These conferences have great attendance and they have received positive feedback from the attendees – many students and adults have requested additional events be held in their local communities.

Thank you for your consideration...
